We were at some pains and expense to sat isty the public curiosity by giving them Kos south's speech at the Reception in New York, and accordingly issued it in an extra at 4 o'clock on Thursday afters on. Mr. Foote then portrayed the private and public character of Kossath; though mild and anniable a private life, be was stern and unbending in his sublice caree, in opposition to the lyramy of Austria and the unprincipled government of Rossia; a firm and unbanged republican in principle, he ately, in three speeches in England, denounced originism. He is about arriving here, the guest of the inition. Shall we not receive him as becomes us and him? The President in his message invites the attention of Congress to this subject, and resonmends that measures be adopted for his reception. He had not obtruded this measure on the Senate. IN A DEVALOR OF THE PUTS CASTRE, E. HAYANA, NO., 21, 1851.

Hyspan, 80, 21, 1861. 5

To be Government of the United States of America, and to my Feliov Constryment:

In American citizen, deprived of liberty and densed justice, respectfully begs leave to bay before you the following facts and appeal:

I non-leaving the Steamer Georgia, on the 16th of betober last, I was suddenly, and without previous accuration, arrested, and taken to the other of the police. On searching my person, and that of agentleman who accompanied me, no papers or letters of any kind were found upon either of us. We were then taken to the holder where I have demanded to be shown to my moun. On as retaining that I had no from there, we were taken to the shown to my moun. On as retaining that I had no from there, we were taken to my residence, and all my papers seized. The gentleman who accompanied me was then a liberty. Myself and all my books and papers were taken to the residence of one of the police commissaries, where four days were oremined to two government interpretes in reading my least. On the 21st of October, I was thrown in oral dangeous of the city prison, and all committed on almogous of the city prison, and all commitments of the use of the Military Tribune made in appearance, and began a judical investigation. Of the 26th this was continued, and then I saw in one until the 4th inst, when the questioning we proceeded with; and on the 5th I was again a estioned, and timally infortued that I was accessed of treson. At the satue time I was required to see to me from a list of officers that was pescented to me, who should conduct my defence. On knowing any of them, I chose one at random, a passing he would consult with me and with my lad advisors, as is usual in scale cases, in regard to the defence. On the 7th inst. I was for the regarded on troplied to.

On the 1th I was informed that I was to be roughly one the next tax bots of an outer of which have been utterly disregarded.

communications in my behalf to the government 1 are, all of which have been utterly disregarded, 1 al not replied to.

On the 11th 1 was informed that 1 was to be 1 tought up the next day for sentence. I immeniately wrote to my nominal defender to come at mee to consult with me, and to brine with him 1 in proceedings which were in writing. He relied verbally, that he would come in the aftersoon. He did not come, and tentered at one a sousest against the proceeding, alberine that I had of been heard, and neither my self or my legal diviser had been consulted for a proper defence, sent this to the President of the Military commission that night, who refused to receive it, raying that it could only be admitted by the Cipian General. The American Consulted for the palace, and protested against sentence being pronunced, as I had not been heard in defence. In the morning my nominal defender came to my orison to inform me that he had been allowed by the court only twenty-four hours to prepare my before; that he had been coupied till that moment examining the proceedings which were columnous, and that within an hour he met my morning and six officers of the army.

The testimony mad proceedings which were columnous, and that within an hour he met my thought not court, which is contrary to law and to custom; and when I was bought in I was analous hear a court martial, composed of a brigation and to the first and to court, which is contrary to law and to custom; and when I was bought in I was asked what I had to say to the charge against me? I replied that thad not been famished with a copy of the charge—that I had been denied access to the proceedings and testimony—that my nominal defender hadjucither constited with a copy of the charge—that I had been denied access to the proceedings and testimony—that my nominal defender hadjucither constited with no or with my counsel—and I asked that my protest and patition for stay of proceedings, alone the impropriety of bringing me before a court which has assumed a president of t of not replied to.

On the 11th I was informed that I was to be

that I succored, so far as I was able, those of my unfortunate countrymen who were enpities here and that, in the court, I had the independent spirit (they call it andacity) to rely upon my in-movenee and my rights as an American citizen-Having been denied justice, I now ask at the hands of the American Gevernment, and the lands of the American Gevernment, and the American people, that liberty of which I am so iniquitously deprived. All the horrors of the Spanish galleys are before me, and my only hopes are in the sympathics of my countrymen, and the prompt action of our National Government.

J. S. THRASHER.

Kossura's Ecoquence -- That paragraph, in one of Kossuth's speeches in England, where he re-lates the answer of the Hungarian Diet to his appeal to them to stand up against the wrongs of Austria, has no doubt, attracted the intention of many of our readers. The Albany Evening downed, in commenting upon it, says :

many of our readers. The Albany Evening downal, in commenting upon it, says:

What a picture f--the four hundred Representatives who rose as one man- and, lifting their right arms towards (ied, dedicated themselves, by an oath, to "Freedom or Death!" According to the interjectional remark of the reporter, the asslemnity of gesture and voice with which this narration was given, produced, as might leave been expected, a powerful effect upon the Assembly. Then continuing his relation of events, said Kos is ath:—Thus they spoke, and there they swore in a calm and silent majesty, awaiting what further word might fall from my lips. And for myself, it was my duty to speak, but the granders of the moment, and the rushing waves of sentiment benumbed my tongue. A burning tear fell from my cyes, a sigh of adoration to the Almightly Lord fluttered on my lips; and, howing low before the majesty of my people, as I bow now before the majesty of my people, as I bow now before the majesty of my people, as I bow now before you, gentlemen. I left the tribunal silently, speechless, mute."

Again the short-hand-writer interrupts his record to remark that the outer here paused for a few moments, overpowered by his emotion, with which the company deeply sympathised. Then, resuming—" Pandon my emotions," said he, with a soldime sidemnity—" the shadows of one matery posted before my eges—I heard the millions of mother land again showing. Liberty or Death."

Than this, says the London Sanwe know nothing more touchingly beautiful in the whole range of oratory. And it has been in language, thus elevated and persussive, that Kossath has opened his heart to his sympathisers in fingland-speaking to them in words of hurning elequence, though with the accourt and promunication of a foreigneer.

Another London paper speaking of the same speech, says:

He spoke prose pactry of the psalmist order; he uttored profound political truths. He awake in the breast of his hearers the yearning to help, with arms or roice, with life or death, the cause of his native land. He touched the fountains of tears by deep pathos of expression, and beneath the fierce glowing hatred of his powerful antagonists, and below his own glorious aspirations, there can that profound sentiment of the indingness of the transitory which characterises all the orations of Kossuth."

A Skeleton.—In a lot of white-fish which was sent here last week, was one barrel, which on opening was found to contain the bones of a man, evidently dead for a long time, as no desh remained on them and they were in a dry state. Some excitement has grown out of the matter in town, and we hear that a complaint is entered beforeone of our Justices, on suspicion of foul play. We have taken some pains to ascertain the facts in the matter, and have learned, beyond a doubt, that nothing wrong has been done beyond the thoughtless disintering of an Indian or other grave on the Bay shore. Some one connected with the vessel which brought them, having a turn for medical investigations, took this way of getting a skeleton, and its accidental discovery has bleen the cause of suspicions which have led to a thousand and one lad cross stories now iloating around town.—Green Ray Adsocat.

Curry Corry.—The November term of the Grenit Court adjourned on Friday last. This session was an imusual busy one and many cases were disposed of. How, Levi Hubbell presided with credit to himself and these who gave bim their votes at the late Julicial Election. We heard but one opinion expressed relative to Judge Hubbell at the late session, and that was of unqualified praisa.—Waukerha Democrat. Sanbary, Pa., Dec. 3.

The Northumberland Co. Democratic Convention met yesterday and elected John B. Packer,

Arrival of the NIAGARA. EXCITEMENT IN PARIS.

Haliris, Dec. 11. The Namara arrived last m. ht. She left Liv erpool on the 29th of Movember, bringing 31 passengers. FRANCE. "The enginesing topic throughout Eu-

rope, is the approaching crisi- in the affairs of Prance. The Assembly, in despite of the recent vote, and unraistakeable popularity of President Louis Napoleon, have resolved to provoke him into direct collision with them.
On Thursday, Nov. 29, the President delivered

in Champs. Elysees, crosses and medals to the successful French exhibitors at the World's. Fair, and delivered a speech on the o easion, which was likely to make him popular with the Republican party. It was the first time that he had uttered words in which may mention was made of the Republic. The consequence was that many who were devoted to the views of General Cavaignae had declared that they would now support the President, as the only means of having the Republic sustained.

An extraordinary argument of incredible length had appeared in the Constitutionel, where a di-rect attack was made upon some of the highest names in France, such as General Changamier. Mons. Berryer, and others, who are charged with being connected with a secret committee, seeking to overthrow the government. Never lad : newspaper article produced so much excitement, as it was against the Orleanists and the Legitimists. The paper is believed to be in the inter est of the government, and the ministry to be aware of its production, or to have assisted in it. It was generally believed that the bill regulating the responsibility of the President, would be rejected by the Assembly.

The conductor exacted ten cents additional fare, which they at first refused to pay, when he ordered the cars stopped to put them off.
